Collapsible Lantern Softbox

Godox
CS-85D

Stunning Soft,

Omni-directional Light

This spherical Lantern is perfect for creating soft and even light that spreads in all direction, whether in a small space or a larger scene. With a 270° beam angle, the light is ideal for video recording, live streaming, and film making.

Extremely Fast Set Up

Thanks to its simple and durable design, this softbox is a breeze to use. The Lantern could be popped open or closed in merely few seconds, making it a quick solution on the go.

A Skirt for More Control

To further control your light precisely, we provide a detachable 4-section skirt (Available for Purchase) that you can attach anywhere on the Lantern. Rolling up or down the skirt, you can get off any unwanted bouncing light.

Skirt Set for Lantern Softbox (Available for Purchase)
